

O'CONNOR COMPANY

YOUR HVAC PARTNER SINCE 1920

PREMIER ONE RESIDENTIAL AIR PURIFICATION DEVICES

AIR TREATMENT UNITS

Air treatment units control germs, viruses and fungi using germicidal UVC. A second lamp controls odors and VOCs.

FEATURES

- Patented odor-control chamber can be easily adjusted by the homeowner for the correct amount of odor control. Oxidize organic odors naturally without the use of chemicals.
- Germicidal UVC lamp kills or deactivates germs and controls allergens. The UVC germicidal twin lamp has single-pass germicidal killing power.
- Energy efficient due to solid state design.

MUV-401H-16

COMPETITIVE ADVANTAGES

- Powerful germicidal twin-tube H lamp outputs up to three times more microwatts than single-tube lamps.
- 180 Microwatts (16" lamp); 140 Microwatts (12" lamp).
- 2-Year long-life lamps.
- Lifetime warranty on electronics (2-years on lamps).
- Auto-sensing ballast works from 120 VAC to 240 VAC.
- 12" or 16" UV lamps available for correct fit.
- ETL certified.

P6100 POLARIZED MEDIA AIR CLEANERS

Polarized Media Air Cleaner controls smoke, pollen, dust mite dander, dust, and other organic and inorganic particulates.

FEATURES

- High voltage power head creates an electrical charge to attract and trap particles.
- Effectiveness does not diminish over time like electronic precipitators.
- Removes tobacco smoke from air. Removes particles down to .01 microns.
- Low airflow resistance effectively filters without restricting airflow.
- Merv 16 performance with static pressure of standard fiberglass throw-aways.
(Multiple pass application.)

P6100

PREMIERONE PureFlo™

COMPETITIVE ADVANTAGES

- Easy installation.
- Fits into the existing standard one inch filter racks.
- Easy maintenance: simply replace the economical fiberglass filter pads as needed.
- Replacement media pads are sold in handy 3-packs. This is considered a one year supply. (Media should be replaced every four months under normal conditions.)

HEPA AIR CLEANER

HEPA Air Cleaner controls smoke, pollen, dust mite dander, dust, and other organic and inorganic particulates.

FEATURES

- Superior filtration traps germs, bacteria, viruses and allergens.
- Bypass operation with zero pressure drop.
- Arrests 99.97% of particulate at .3 microns and can collect particles down to .01 microns.
- Removes tobacco smoke from air.
- 2-speed motor. 220 cfm quiet mode and 300 cfm high speed mode.
- Insulated cabinet.
- Quiet operation.
- Easy to install; installs on any HVAC system.

HP500

PREMIERONE PureFlo™

COMPETITIVE ADVANTAGES

- Easy maintenance: simply replace the pre-filter with carbon every six months and the true HEPA filter every two years. (Recommended under normal conditions.)
- Pre-filter and carbon are combined into one handy filter that lasts six months.
