## AIR SCRUBBER BY AERUS

### activTek INDUCT

Substantially reduces odors, visible smoke in the air and microbial populations on surfaces\*, utilizing the patent pending ActivePure® Technology. ActivePure® consists of a special UV light and photocatalyst target, creating an advanced oxidation process containing several friendly oxidizers.

### ELIMINATE 99.9% OF AIRBORNE VIRUSES!

NASA-Based ActivePure Technology® Rapidly Eliminates 99.9% of Airborne SARS-CoV-2 Virus in FDA-Compliant Military Lab Tests. Developer Scaling Production to Meet Global Pandemic Needs.

- 120/240V
- UV bulb monitoring system installed
- 9" W x 9" H x 17" L
- 4 lbs
- Up to 5,000 sq. ft.

### activTek PureCloud

Proprietary ActivePure® Certified Space Technology™ uses light waves and a catalytic process to produce scrubber ions that remove dust particles from the air. Certified Space Technology™ continuously protects and purifies the air and attacks contaminants on all surfaces. Plus, the Technology is proven effective against contaminants in university studies.

# O'CONNOR COMPANY

YOUR HVAC PARTNER SINCE 1920

## AIR SCRUBBER BY AERUS

### Pure & Clean+

This revolutionary air purifier substantially reduces odors, visible smoke from the air and microbial populations on surfaces commonly found in the average home or office environment. The unit features a new and improved patented ActivePure® cell design that delivers ActivePure® faster to surrounding air and surfaces. Plus, this unit is portable and has a switch to turn the ozone on or off.

### ELIMINATE 99.9% OF AIRBORNE VIRUSES!

NASA-Based ActivePure Technology® Rapidly Eliminates 99.9% of Airborne SARS-CoV-2 Virus in FDA-Compliant Military Lab Tests. Developer Scaling Production to Meet Global Pandemic Needs.

Before ActivePure® Technology

After 8 hours with ActivePure® Technology

- Positive and negative multipoint and RF ion generation
- Five-speed fan
- Adjustable purifier control (A·PURE+ only)
- Replaceable ActivePure® cell

### AP5 BOE

The AP5 BOE substantially reduces odors and microbial populations in the air and on surfaces\*, utilizing the proprietary ActivePure® Technology consisting of a special high-output UV light and photocatalyst target, creating an advanced oxidation process containing several friendly oxidizers.

- Self-contained, compact, basic odor eradication system
- Fully automatic
- Wall mountable
- Connection hose provided
- Plugs into standard 120VAC outlet
- No costly chemicals
